

TECHNICAL SKILLS

- **Backend & Full Stack:** PHP, Laravel, FilamentPHP, Python, Django, Java, C#, Docker, Heroku, AWS S3, WebSocket Integration.
- **Frontend & UI/UX:** JavaScript, TypeScript, React, Next.js, Vue.js, TailwindCSS, Bootstrap, MaterialUI, Antd, Figma, Responsive Web Design.
- **Data, Auth & Tools:** MySQL, PostgreSQL, MongoDB, Firebase Realtime DB, SQLite, OAuth/JWT, Git, GitHub, Arduino Uno, ESP8266.

PROFESSIONAL EXPERIENCE

PHP Developer | Mage Montreal *(Nov 2025 - June 2026)*
Quebec, CA (Part-time)

- Led optimization of an enterprise legacy codebase, reducing load times from 40 seconds to <5 seconds via Redis caching, database indexing, and asynchronous patterns.
- Spearheaded refactoring of legacy PHP to significantly reduce technical debt and enhance system stability.

Front End Developer | Access Virtual Staffing (RxTRA Clinical) *(June 2025 - Present)*
Florida, USA

- Engineered a custom data visualization tool mapping 1M+ records, optimizing rendering pipelines to eliminate browser bottlenecks.
- Optimized a pharmaceutical portal to ensure sub-200ms load times for thousands of concurrent users.
- Hardened legacy systems to meet strict HIPAA healthcare data standards.

Laravel Developer | Fronted AS (Bolidforeningsweb) *(Feb 2025 - June 2025)*
Mandal, NO

- Developed communication modules for a multi-tenant platform using Laravel and Livewire for event-driven experiences.
- Established robust PHPUnit testing strategies to eliminate production regressions and increase release confidence.

Freelance Web Developer | Edmer Software Solutions *(Aug 2023 - Present)*

- Managed full lifecycle development of localized alumni platforms and e-commerce sites for international clients, deploying on AWS/Heroku.

Junior Full-Stack Developer | PocketDevs *(July 2022 - Mar 2025)*
Makati City, PH

- Built a robust work-order scheduling system using Laravel, React, TypeScript, and SWR.
- Reverse-engineered an undocumented startup codebase to establish clean architecture.
- Managed direct client communications achieving a 100% completion rate.
- *(Also served as Web Developer Intern from Jan-June 2022)*

EDUCATION

- **Bataan Peninsula State University** (2022 - 2026): Bachelor of Science in Computer Science Major in Software Development, Cum Laude.

OPEN SOURCE CONTRIBUTIONS

- **FilamentPHP:** Resolved a critical Livewire callback escaping bug.
- **Symfony:** Contributed core framework localization to Tagalog.
- **BetterGovPH:** Optimized UX/SEO and fixed broken navigation.
- **PHP RRule:** Implemented string localization for complex recurrence rules.

CERTIFICATIONS & SPEAKING ENGAGEMENTS

- **Certifications:** Certiport (App Developer, IT Specialist in JS, Software Development, AI, Cybersecurity), HIPAA Certificate (Accountable HQ), Cyber Threat Management (Cisco), App Development w/ Swift (Apple), Civil Service Professional.
- **Speaking:** Hosted BASE404 Next.js Masterclass (Aug 2024) and served as Resource Speaker for SSITE General Assembly (Nov 2024).
